

SMART INFRASTRUCTURE CERTIFICATE PROGRAMS

Learn about our latest releases and become more proficient on the software you already use. Regardless of your role, you'll gain the essential knowledge, practiced techniques, and sound theories you need to boost your expertise and take away knowledge to share with your colleagues.

To participate in one or more of the certificate programs, please email kara.watkins@hexagon.com and list your program(s) of interest. Then, during **HxGN LIVE**, simply attend the requisite sessions and have your name badge scanned by the Hexagon staff member at the door. We will mail a certificate of completion to you after the conference.
